

12/22일 과제 질문

```
public class Homework4 {  
    //double 변수 2개 랜덤값 할당  
    public static void main(String[] args) {  
        double rand = Math.random();  
        double num1 = (double) (Math.random() * 100+1);  
        double num2 = (double) (Math.random() * 100+1);  
        System.out.println("double = " + num1);  
        System.out.println("double = " + num2);  
    }  
}
```

```
Homework4 x  
C:\Users\Thomas\.jdk\azul-11.0.13\bin\java.exe  
double = 48.581856050147174  
double = 11.455821645081143  
Process finished with exit code 0
```

- ⚠ Warning:(5, 24) Casting '(Math.random() * 100 + 1)' to 'double' is redundant
- ⚠ Warning:(6, 24) Casting '(Math.random() * 100 + 1)' to 'double' is redundant

결과는 잘 나오는데 commit 하면 경고가 2군데에서 발생합니다.
왜 그런지 잘 모르겠습니다.
